Annual Research Conference 2021

- University of Melbourne
- Dates and format to be confirmed

Future Planning

- We have developed a "trello" project management board that outlines the steps for arranging the conference
- We are looking to contract casual administrative assistance to help with the conference organisation
- Consideration should be given to partnering with the Croakey team for further media coverage in 2021
- The conference has proven to be an excellent way to increase membership and keep AAAPC financially viable; it is the peak conference for primary care research in Australasia
